

Live Chat with an Astronaut

Meeting a retired astronaut can be a life changing experience for children and adults alike. The advances in technology with online learning, along with your participation, allows the Astronaut Scholarship Foundation (ASF) to bring this opportunity to thousands of space enthusiasts and virtual classrooms across the world.

Students will have the opportunity to join this intimate session via a virtual room with a limited number of participants. You will interact with a host and astronaut as they share their personal experiences. This is your chance to have a true interaction with an American hero!

The astronaut will share personal stories and have a general theme/topic that will focus on the current and future space program.

General Event Flow (60 minutes)

- Welcome and Introduction - School Representative
- Welcome and Introduction of Astronaut - Astronaut Scholarship Foundation
- Opening Remarks – Astronaut
- Slide/Video Presentation – Astronaut
- Q&A
- Closing Remarks

Platform

The ASF Event Team is experienced with a variety of video platforms. We recommend using Zoom for easy video and audio conferencing. This platform is available through ASF. If the school prefers to host using a different Zoom account or platform, ASF will continue to provide support as needed. We suggest one rehearsal/overview with the ASF team and astronaut before scheduled event date.

Suggested Donation
