

COLLEGE SCHOLARSHIP PARTNERSHIP

**ASTRONAUT
SCHOLARSHIP
FOUNDATION**

CREATED BY THE MERCURY 7 ASTRONAUTS

SCHOLARSHIP SELECTION DETAILS

- The Astronaut Scholarship Foundation was created to ensure that the United States would maintain its leadership by supporting some of the very best science, technology, engineering and math college students.
- Scholarship candidates must be nominated by faculty members. Students may not directly apply for the award.
- Scholarship nominees must be U.S. citizens.
- Scholarship nominees must be engineering or natural or applied science (e.g. astronomy, biology, chemistry, physics, earth science, computer science) or mathematics students with intentions to pursue research or advance their field upon completion of their final degrees.
- Students intending to pursue a practice in professional medicine are not eligible for the scholarship. However, those intending to perform biomedical research are eligible.
- At the time of nomination, scholarship candidates must be at least second year (sophomore) college students, have excellent grades, and have conducted a considerable amount of lab and research work in their field.
- The Astronaut Scholarship is awarded only to students during their junior or senior year. In some cases students may carry their awards to a second year.
- Students must attend school full-time during both terms of the ASF-supported academic year.
- Scholarship nominees are those students who have shown initiative, creativity, and excellence in their chosen field.
- Special consideration is not given to aeronautical/astronautical engineering students or those intending to pursue careers as astronauts.
- Scholarship nominees and recipients must attend a cooperating educational institution.
- Students interested in the scholarship award should contact the ASF liaison at their attending university.
- The scholarship candidates are nominated by faculty in their department to a university-wide committee.
- The university committee selects their best two candidates and submits these nominees to the Astronaut Scholarship Foundation Scholarship Committee.
- The ASF Scholarship Committee selects recipient(s) from each school and presents the candidates to the ASF Board of Directors for approval. If both nominees from a school are deemed unqualified, the scholarship will not be awarded to the school.

COOPERATING EDUCATIONAL INSTITUTIONS

Brown University
Clemson University
Florida Institute of Technology
Georgia Tech University
Harvey Mudd College
Louisiana State University
Massachusetts Institute of Technology
Miami University (Ohio)
North Carolina State University
North Dakota State University
Ohio State University

Penn State University
Purdue University
Syracuse University
Texas A&M University
Tufts University
University of Arizona
University of Central Florida
University of Chicago
University of Colorado at Boulder
University of Kansas
University of Kentucky

University of Michigan
University of Minnesota
University of Oklahoma
University of Rochester
University of Southern California
University of Texas at Austin
University of Virginia
University of Washington
University of Wisconsin

This list may change at any time. If you would be interested in a school not listed please contact ASF.

INVESTMENT BENEFITS

- Recognized in all marketing collateral associated with the school chosen
- Attend scholar check presentation
- Logo on sponsor board at the check presentation
- Logo on ASF website
- Logo on ASF social media
- Participation in public and private Astronaut Scholar events; including speaking opportunities at appropriately designated education and promotional events
- Inclusion in the Mentor Program to provide guidance to ASF scholars
- Logo and link on College Scholarship Partnership web page
- Collaboration with ASF for events and activities at your business locations

SCHOLARSHIP PARTNERSHIP ENROLLMENT FORM

\$10,000 Annually - Minimum 3 year commitment (If sponsoring a new school the minimum commitment is 5 years)
